

# MONTCO 2050 Feedback Snapshot: Housing

Highlights from public input on housing collected online and in person 2024-2025

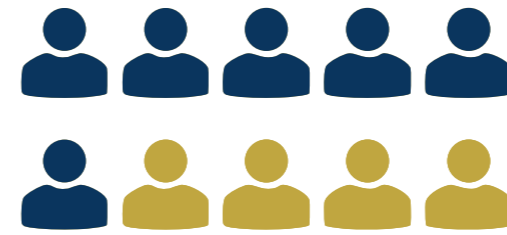

**62%**

**of respondents supported creating more affordable housing**

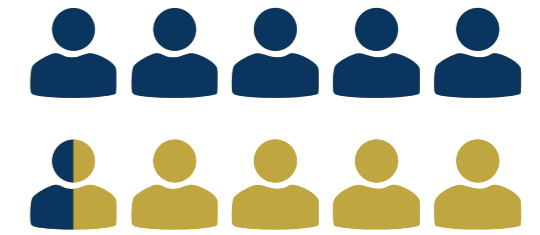

**58%**

**support additional dwellings on existing lots (backyard units or dividing existing homes)**

**58%**

**support building new smaller units**

**56%**

**support building new housing of all types**

Reduce property taxation on seniors and those on fixed incomes. Don't force people out of homes they worked a lifetime to own.

A lack of affordable housing, especially starter homes.

Not enough affordable housing or programs to help low-income families.

Find a solution for housing the homeless.

We live in a desirable area. We need to make sure that it is accessible to a variety of consumers. Improving the density of housing can help.

*Young adults are finding it difficult to purchase a home near where they grew up.*
