

# MONTCO 2050 Feedback Snapshot: Transportation

Highlights from public input on Transportation collected online from March - October, 2024

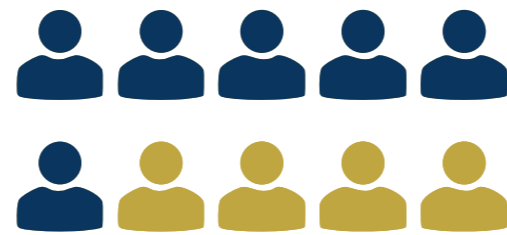

**63%**

**build more sidewalks**

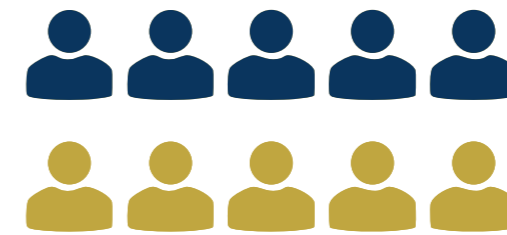

**62%**

**build more off-road trails**

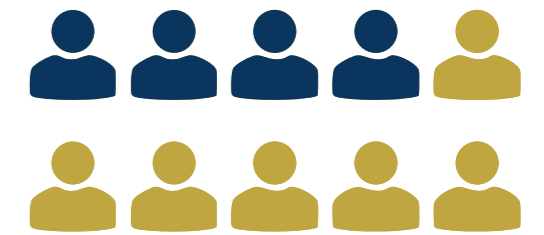

**57%**

**implement traffic calming measures to slow traffic and improve safety for bicycles and pedestrians**

**50%**

**add more bicycle lanes to roadways**

**37%**

**remove vehicle lanes from roadways to make more space for bicycles and pedestrians**

I would love to be able to cycle safely out of my borough, or to use buses or trains to get around within Montco.

Traffic calming please! Signs don't slow down traffic.

Sidewalks need to be accessible for people with disabilities.

Improve safety on rural roads, especially if used for school travel.

More sidewalks, more destinations to walk to.

Is it possible to add an interchange [at] I-476 and Rt 202?

Our engagement revealed high demand for increased walkability, more transit and train service, and an expanded trail network. People want to close sidewalk gaps in their communities, make sidewalks accessible, and have streets that are safe for everyone. By contrast, very few people said they want more road and highway expansion.
